

Cell Signaling
TECHNOLOGY®

EXCLUSIVE

Kvalitex Kft. has been appointed by Cell Signaling Technology® (CST™) as the official representative and distributor for the current CST portfolio in Hungary.

Cell Signaling Technology has authorized no other companies in Hungary to represent, quote, stock or sell products from the current CST catalogue. Furthermore, CST does not supply products to any third parties in Hungary other than Kvalitex.

CELL SIGNALING TECHNOLOGY OFFERS

ANTIBODIES & KITS

Primary, secondary, and conjugated antibodies for applications such as western blotting, immunohistochemistry, immunofluorescence, flow cytometry and ChIP

Kits include ELISAs, cellular assays, arrays, and ChIP kits

PROTEOMICS KITS & SERVICES

PTMScan® Proteomics Kits for in-house immunoenrichment of post-translationally modified (PTM) peptides prior to identification and quantification by LC-MS/MS

PTMScan® Proteomics Services where scientists work with you from project planning through delivery of a complete data package.

COMPANION PRODUCTS

Reagents, buffers, dyes, siRNA, chemical modulators

Control samples and treatments for your application

SCIENTIFIC RESOURCES

PhosphoSitePlus® database, an online resource for information and tools related to the study of post-translational modifications (PTMs)

Peer-reviewed signaling pathways

Application guides and specific protocols

For a full product listing and more online resources, please visit www.cellsignal.com

Please be aware that Cell Signaling Technology cannot guarantee the authenticity of products, and cannot extend the CST product guarantee to items purchased from parties other than the authorized distributor of your region.
